

SPEAKER BIOGRAPHY

Norbert Hass
Head of Technical Department
VDA QMC

In his role at the VDA QMC, the Quality Management Center at the Germany Association of the Automotive Industry (VDA), Norbert leads the Technical Department, which, among other functions, is hosting the IATF Oversight Office at the VDA QMC.

In this role, Norbert is a strong advocate for the highest standards of compliance and consistency across the global IATF 16949 certification scheme. He is committed to ensuring that IATF-recognized certification bodies operate to the highest level of integrity and in full accordance with all applicable rules and requirements - regardless of where certification activities occur around the world.

Norbert firmly stands for the belief that the certification scheme serves all automotive stakeholders equally: OEMs, suppliers, and their entire supply chain(s).

During his many years of service, Norbert was co-author of a number of IATF Publications, such as the current IATF 16949 and several IATF Rules versions.

Norbert holds a Diploma in Business Administration and Engineering.
