

SPEAKER BIOGRAPHY

Pedro Dias

***Global Supplier Quality Manager, Operations
General Motors***

Supplier quality and engineering leader with more than a decade of automotive experience.

Pedro began his career in engineering and manufacturing roles in Brazil before joining General Motors in 2015, advancing through SQE, new product launch, interiors, data analytics, and warranty leadership roles, supporting major vehicle programs, and global supplier quality initiatives.

In 2026, he assumed the role of Global Supplier Quality Manager, Operations, leading global supplier quality processes, standardization, digitalization, and cross-functional performance.

Pedro holds a Master of Science in Lean Manufacturing and Operations Management from Kettering University and a Bachelor in Automation and Control Engineering from the Federal University of ABC.
