

SPEAKER BIOGRAPHY

Felix Xu
SQE
General Motors

Felix Xu is a Supplier Quality Engineer with General Motors China. Felix has worked as an SQE for interior, powertrain components, and launch programs, with experience in supplier development, quality audits, launch readiness, and supplier quality improvement.

Felix is a member of the AIAG China Quality Advisory Committee (ACQAC), contributing to collaboration among OEMs and suppliers and supporting solutions to common challenges across the mobility value chain. Felix is also a core contributor to the development and launch of AIAG CQI-38, the industry standard for AI vision inspection.

Felix holds a master's degree in engineering from Tongji University.
