

## ***SPEAKER BIOGRAPHY***

**James (Jim) Medlow**  
***Sr. Director - Quality***  
***Flex Automotive***

James W. Medlow Jr. is a senior quality leader with over three decades of experience in the automotive electronics industry, currently serving as Sr. Director of Quality at Flex Automotive in Farmington Hills, Michigan. He leads global customer quality initiatives, managing multi-disciplinary teams and strengthening collaboration between manufacturing sites and OEM customers. James brings deep expertise in quality management systems, including IATF 16949, ISO standards & AIAG Core Tools, with a strong focus on data-driven problem solving, supplier quality, and performance improvement. He has successfully led global certification transitions, developed enterprise KPI systems, and supported complex customer engagements through analytical insight. His work aligns closely with Catena-X priorities, including supply chain transparency, interoperability, and digital quality, making him a valued contributor to advancing collaborative, data-enabled ecosystems across the automotive value chain.
