

## ***SPEAKER BIOGRAPHY***

### **Tracy Bojarczyk**

***Manager, Operational Excellence Master  
General Motors***

Tracy Bojarczyk is an **Operational Excellence Master** at General Motors, supporting the **Quality & Engineering** organizations. She helps teams solve complex problems using data-driven methods that improve processes and product performance. Tracy is an **active member of the AIAG/VDA SPC Harmonization Workgroup**, contributing to the next-generation jointly harmonized SPC standard designed to strengthen and simplify expectations across the global automotive supply chain. She brings a practitioner's perspective from leading cross-functional efforts spanning **quality, engineering, manufacturing and supplier quality**, with a focus on teaching and applying statistical methods in ways that are practical for end users. By education, Tracy holds a **B.S. in Mechanical Engineering from Michigan State University** and a **M.S. in Engineering from Purdue University**. She is a **certified DMAIC and DFSS Master Black Belt**. Tracy is passionate about sharing real-world lessons learned, fostering industry alignment, and helping teams translate standards into everyday routines that protect customers and brands.
