

SPEAKER BIOGRAPHY

Sara Smith
Customer Supply Chain Manager
Royal Technologies

Sara Smith is a seasoned Supply Chain professional with a distinguished 26-year career at Royal Technologies. Over her tenure, she has progressed through diverse roles, starting as an injection molding operator and auditor, and advancing into project support, where she played a key role in 5S initiatives. She subsequently served as a Supply Chain Analyst for customer-facing accounts, leveraging her deep operational knowledge.

Currently, as Supply Chain Manager, Sara provides strategic leadership for the customer-facing supply chain analyst team and the customer launch program team. She is dedicated to driving efficiency and excellence in supply chain operations. Sara holds a Bachelor's degree in Business Management from Davenport University. Outside of her professional responsibilities, she enjoys camping and spending time with her family in Northern Michigan.
