

SPEAKER BIOGRAPHY

Anne Riitho
Chief Data Officer
BITE

Anne is Chief Data Officer at BITE, and has a background in data, analytics and use of AI to analyze cross border trade. She led investigative work at NU Borders, supporting Departments of State, Homeland Security and Justice, leveraging international trade data, AI and analytical tools to support critical customs enforcement mission operations. The work Anne and her team performed led to the listing of more than 20 entities on the OFAC SDN list, as well as the disruption of multiple TCO networks.
