Mr. Huang Chao has been with Aurobay Technologies (formerly the Powertrain System of Geely Automobile Group), a division of HORSE Powertrain Ltd., since May 2017. He serves as Assistant to the General Manager and AI Director. During his tenure, Mr. Huang is responsible for the mid and long-term industrialization strategy and global footprint, as well as industrialization implementation of ATD under HPL. He established the intelligent manufacturing system and continuously promoted the lean, digital and intelligent transformation of manufacturing modes. Meanwhile, he oversees and leads the overall AI development of the company, systematically and scalarly advancing the deep integration and innovative application of artificial intelligence across the full business value chain.

Mr. Huang possesses more than 15 years of experience in senior leadership and management roles. He previously held positions including Machining Manager at GETRAG Transmission Co., Ltd., Transmission Process Director, Project Management Director and Director of the ME Center at Geely Powertrain Manufacturing Company.

Mr. Huang holds a Master of Business Administration from Zhejiang University of Technology and a Bachelor's Degree in Mechanical Design, Manufacturing and Automation from Wuhan University.
